I-Beam Trolley

SIT-250 SIT-70

I-Beam trolley has been designed specially to hang SPRING BALANCER in weld shop, Assembly Line for suspending Transformer, Welding Gun and Pneumatic Tools, in Automobile manufacturing Plants.

This I–Beam Trolleys are rugged in construction made from High Graded steel Plates and Rollers. Good quality pre lubricated roller bearing makes trolley effortless to move on I–beam. Provisioned with Rubber shockers mounted on side plates prevent collision with other trolleys.

Capacity	Model	Beam Width	Weight
kg	No.	mm	kg.
500	SIT - 500	50, 75	6.5
250	SIT - 250	75, 125	4.5
70	SIT - 70	50, 75	1.0
